

DELAWARE MATERIAL SPECIFICATION

BEDDING MS 215

1. SCOPE

This specification covers the quality of bedding material used in the foundation of pipelines, conduits and structures.

2. QUALITY

Soil material, fine gravel or coarse gravel specified as bedding material shall be durable, non-compressible and be within the grading limits of the Unified Classification System, UCS, shown on the drawings. The following table gives the maximum size, minimum specific gravity and general description in the UCS.

<u>Material</u>	<u>S.G. (Min.)</u>	<u>Size (Max.)</u>	<u>UCS</u>
Soil	1.75	#10 Sieve	SW, SP, SM, SC, ML, CL
Fine Gravel	2.00	3/4-inch	SW, SP, SM, SC
Coarse Gravel	2.40	3-inch	GW, GP, GM, GC
